NEXAGATE ISMS / ISO 27001 CONSULTING SERVICES

We help organizations strategize , build and certify a robust and effective Information Security Management System (ISMS)

THE NEED FOR ISMS

An Information Security Management Systems (ISMS) provides a systematic approach to managing sensitive information in order to protect it. It encompasses People (employee), Process (policies, procedures, standards, guidelines), and Product (technology). Information security consists of preserving C-I-A elements (Confidentiality, Integrity and Availability).

CERTIFICATION BENEFITS

INCREASE ASSURANCE

Provide assurance to employee and stakeholders to serve as a guarantee of the effectiveness of the effort to secure organization at all levels

REGULATORY COMPLIANCE

Helps to meet regulatory compliance requirements and enables more informed decision-making
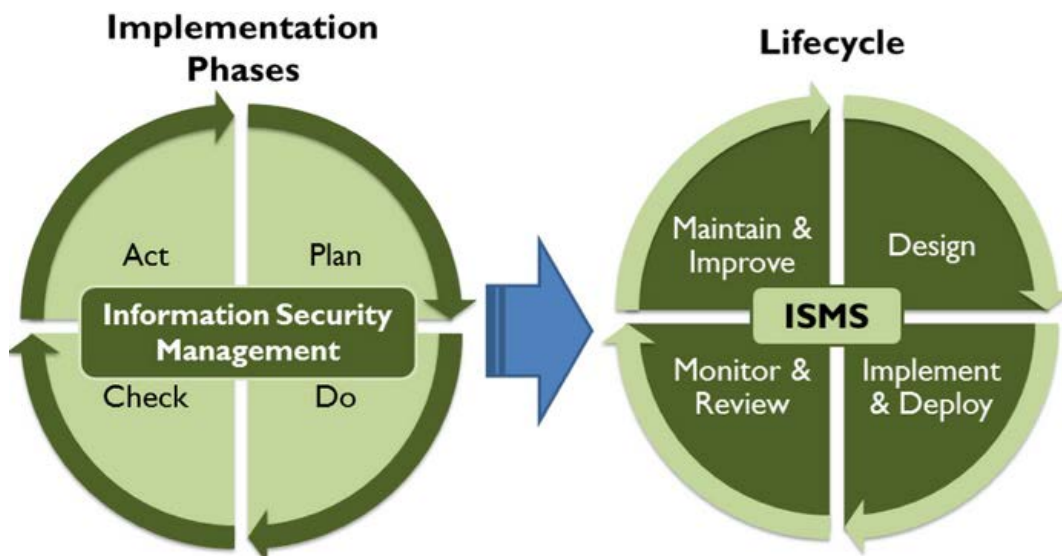

REDUCE COST

By mitigating security breach and incidents, the costs associated with loss of business decrease as well.

NEXAGATE APPROACH

The approach taken for Nexagate's ISMS Consultancy is by incorporating the ISO PDCA
